

# CAPABILITIES STATEMENT

INTEGRATED TECHNOLOGY AND LOGISTICS SOLUTIONS FOR GOVERNMENT

Natuv is a **Set-Aside Small Business and Prime Contractor** that helps **government and tribal agencies** integrate complex technology and logistics solutions through a single, accountable partner.

We bring together **enterprise and defense technology, cybersecurity, analytics, and secure logistics** into one coordinated delivery model that reduces complexity and accelerates mission outcomes.

## CORE MISSION

Our mission is to simplify how agencies adopt and manage technology and logistics by acting as the integrator between platforms, infrastructure, and operations.

Instead of managing multiple vendors, contracts, and systems, agencies work with one company that connects everything.

## CORE COMPETENCIES

### Enterprise Technology

- Enterprise data storage and infrastructure
- Analytics and automation platforms
- Secure enterprise systems

### Cybersecurity & Risk Management

- Security architecture and risk management
- Continuous monitoring and threat visibility
- Data protection and compliance alignment

### Secure Logistics & Storage

- Secure warehousing and regulated storage
- Supply chain visibility and asset tracking
- Explosives and advanced weapons logistics

**Other Services:** Small Arms & Destructive Device Distribution, Computer Hardware Software and SaaS Distribution, Explosives Import & Distribution, General Contractor / Construction Services including Design / Build
